

# LAZ HEALTHCARE COVID-19 SUPPORT

## PRODUCTS AND SERVICES

### + Traffic Control

Provide assistance with traffic direction due to influx of patients and/or drive-up testing facilities.

### + LAZ Ambassadors and Greeters

Provide assistance with directions, wheelchairs and parking technology.

### + Shuttle Services

Transport patients and employees with comfort and efficiency.

- We are following CDC guidelines and educating all of our employees on effective hand washing techniques. LAZ has created a national task force which is ensuring consistent communication to all of our front-line employees.

- Extensive cleaning schedules and checklists have been developed for each location. We are following CDC guidelines and EPA recommendations.

- Our national LAZ Healthcare Leadership team has the expertise to support your local efforts and can be available to work on any Emergency Preparedness teams/projects as requested.

Our team is a valued and trusted partner to hospital leaders during this time. Together we have shown what true “partnership” means and we are truly proud to be working with the hospital team to navigate through this crisis.
